

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

I am writing in regards to the FCC's proposal to remove and/or relax restrictions on the use of cell phones on commercial airplanes in flight.

The introduction of cell phone use on commercial passenger planes will surely increase tension among the sardine packed occupants and it will compromise flight attendants' ability to maintain order in an emergency.  
And inevitably, cell phone use will enable terrorists to coordinate their plans of death and destruction more effectively.

Please leave the current rules in effect.

Sincerely,

Paul H. Monroe
